About the University

The Khaja Education Society was established in the year 1958 and registered in the year 1966 under Mysore Societies Registration Act 1960, by Late Padmashree Hazrath Syed Shah Mohammed Mohammed – Al – Hussaini Sahab. Presently more than 24 educational institutions comprising of Primary, Secondary and Higher Educational institutions are managed by this minority Society in Gulbarga. It has been working for the upliftment of all, irrespective of caste, creed, or religion. The Khaja Bandanawaz University was recognized as State private university on 23rd August 2018. This esteemed institution runs 8 faculties such as Faculty of Medicine, Faculty of Engineering and Technology, Law, Languages, Arts Humanities & Social Sciences, Education, Sciences and Commerce & Management.

It offers foundation courses in these areas as well as Bachelors, Masters and Ph.D degree. The administration of the University is looked after by eminent educationist Honourable Chancellor Dr. Syed Shah Khusro Hussaini, Honourable Pro-Chancellor Syed Muhammed Ali Al Hussaini, Respected Vice-Chancellor Dr. Ali Raza Moosvi, Respected Director Dr. Syed Mustafa Al Hussaini and Respected Registrar (i/c) Dr. Ruksar Fatima. Khaja Bandanawaz University has a vision to create environment of motivation and accomplishment across various disciplines and harvest knowledge through high quality teaching, research and extended activities leading to the generation of disciplined and intellectual students for the betterment of society.

About the Faculty of Medical Sciences

The Faculty of Medicine, Khaja Bandanawaz University previously known as Khaja Bandanawaz Institute of Medical Sciences offers MBBS programme with 150 student intake and PG programme for different departments. The Faculty of Medicine is recognised by the NMC. With more than 22 years of expertise in the field of Medicine this course at KBNU transforms the students into qualified professionals. Faculty of Medical Sciences has most modern infrastructure which is equipped with all necessary medical tools and equipment for better learning experience. Focusing more on practical practice, it provides a sound foundation and skills to become an outstanding physician with great diagnostic capability. The faculty has the best Professors from around the region. The emphasis is given to integrated and bed-side teaching with community orientation.

About the Department of Microbiology

In our Microbiology Central Laboratory, we do perform a wide array of tests to detect bacteria, fungi, parasites, viruses with varied advanced serological and automated technologies. We have extended our scope of services rendered to the patients greatly and give round the clock services to provide better quality care for our patients. Our Microbiology Central Laboratory is managed by a dedicated, efficient team of medical microbiologist and well trained, proficient lab technicians for timed bench works. All the patient laboratory reports are issued adhering to the turn-around-time. Critical alerts are reported to the concerned departments immediately. Our lab is equipped with state of the art diagnostic facilities such as automated blood culture system (BACT/ALERT), PCR, Fluorescent microscope along with other conventional microbiological tools for diagnostic services.

About the CME

Healthcare-associated infection (HCAI) is one of the most common complications of health care management. It is a serious health hazard as it leads to increased patients' morbidity and mortality, length of hospital stay and the costs associated with hospital stay. Effective infection prevention and control is central to providing high quality health care for patients and a safe working environment for those that work in healthcare settings. It is important to minimize the risk of spread of infection to patients and staff in hospital by implementing good infection control programme. This document outlines the broad principles and practices of infection Control that are essential for the prevention and management of infection. The Hospital Infection Control Policies are needed to be framed and practiced and monitored by the Hospital Infection Control Committee (HICC) The overall aim of this CME is to provide evidence based information in the prevention and control of infection. It is relevant to all staff including doctors, nurses, other clinical professionals and managers working in the hospital.

Registration Fees:

Interns, Nurses & PG's	Rs. 300/-
Faculty	Rs. 500/-
Spot Registration	Rs. 1000/-
